

Catherine Smith, MD

Dr. Catherine Smith is a Professor of Dermatology and Therapeutics and a Consultant Dermatologist at St. John's Institute of Dermatology, Kings College London and Guys and St. Thomas' Hospital. She directs the Skin Therapy Research Unit and is also a lead clinician in national specialized services for adults with severe psoriasis. Her clinical and research interests focus on inflammatory skin disease and translational medicine, extending from biomarker discovery through to interventional studies (phase II-IV), and involve major national and international

collaboration. She also has a major interest in guideline development and implementation in the United Kingdom and Europe with the aim of bringing research findings into clinical practice.
